NEEDS ASSESSMENT

Vascular disease in all of its manifestations is a leading cause of death and disability affecting a large percentage of Americans over the age of 50. There is a critical need for physicians who diagnose, treat and manage patients with vascular disease to receive continuing medical education in this area. The latest pharmacologic, radiologic, surgical and endovascular techniques and technologies will be presented, along with discussions of when these treatments are justified and indicated and when they are not. Updates on clinical trials and opportunities for dialogue with experts in the field provide insight along with the latest data on the results of the various treatment modalities.

There is an enormous gap between actual practice and the current state of knowledge. This gap is filled imperfectly with material in books and published articles. These sources are also often negatively influenced by the biases of authors, reviewers and editors. VEITHsymposium attempts to fill this gap more perfectly and more currently by enlisting speakers with up-to-date information and data, and also those on both sides of controversial issues. In this way, the audience gets a current view of the state-of-the-art in vascular disease management as of the date of the meeting. All important topics are covered at the meeting and for further reference in the web based library, a long-term permanent resource.

In addition, by having numerous short (5-6 minutes) talks followed by panel discussions and capturing the entire meeting on the web based library, the meeting will provide an electronic reference source to help vascular specialists in their practice decisions throughout the year. It will also provide the most up-to-date unbiased information possible to help with these decisions.

FOCUS

The VEITHsymposium provides Vascular Surgeons and other Vascular Specialists with a five-day conference on the most current information about new developments in clinical practice and relevant research. Beginning Tuesday, the symposium offers over 900 fast-paced presentations on what is new and important in the treatment of vascular disease. Important updates and reevaluations, as well as the latest significant advances, changing concepts in diagnosis and management, pressing controversies and new techniques, agents and diagnostic modalities will be presented. Video case presentations will also be included.

OBJECTIVES

Upon completion of the VEITHsymposium, the participants will, after learning about a wide array of topics, be able to:

- Explain the practical implications of clinical trial data on new technologies and techniques for endovascular repair of abdominal aortic aneurysm and thoracic aortic disease
- Summarize the impact of data on therapeutic advances for stroke and carotid disease management
- Compare the safety, efficacy, and therapeutic indications of pharmacologic agents to the management of vascular disease
- Assess data on the latest state-of-the-art for the treatment of superficial femoral and tibial artery disease and describe potential implications for clinical care
- Summarize recent data on treatment advances for venous disease and explain their clinical implications
- Provide new information about the latest developments in hemodialysis access and vascular malformations and tumors

TARGET AUDIENCE

Vascular Surgeons, Interventional Radiologists, Interventional Cardiologists, Vascular Medicine Specialists and all others interested in the management of vascular disease.

ASSOCIATE FACULTY PODIUM PRESENTATIONS

In order to have more younger and less familiar vascular surgeons and vascular specialists play an active role as Associate Faculty at our meeting, we have initiated programs whereby they can present their scientific work at the podium. Vascular surgeons and vascular specialists participating in these programs will have submitted abstracts for a podium presentation, and these abstracts will be posted on our web site under the regions Asia, Latin America, Worldwide and International Society for Vascular Surgery (ISVS). Please visit our web site at www.veithsymposium.org for additional information and instructions on how to submit an abstract to the Associate Faculty Podium Presentations component of VEITHsymposium.

GENERAL SESSIONS

General Sessions will be held in the Grand Ballroom East, Grand Ballroom West, and in the Trianon Ballroom on the 3rd floor on Tuesday, Wednesday, Thursday, Friday and Saturday.

COMPONENT SESSIONS WILL BE HELD AS FOLLOWS:

AIMsymposium Multidisciplinary Acute Stroke Management
Thursday, November 19, 2015

Location: Murray Hill Suites East and West, 2nd floor
VEITHsymposium registrants are welcome to attend at no additional cost.

Hemodialysis Access

Saturday, November 21, 2015
Location: Grand Ballroom West, 3rd floor

Innovation and Investment Roundtable Luncheon

Monday, November 16, 2015
Location: Gramercy Suites East and West, 2nd floor

The VEITHsymposium Innovation and Investment (I&I) Roundtable, now in its second year, is a session dedicated to the presentation of novel medical products that have the potential to truly change patient care and the management of complex cardiovascular diseases. The presentations are by invitation only. Manufacturers and their topics are chosen by the VEITHsymposium Organizing Committee based upon knowledge of unique products that are at various stages of development. The roundtable session provides opportunities for manufacturers to showcase technology that, in many cases, will require further investment to complete development and clinical research. Similarly, the session provides an interactive setting for investors and investment firms to see novel technologies and probe the challenges and potential for each, with ample time for question and answer period that follows each presentation. Lastly, key cardiovascular thought leaders, physicians and scientists alike, are invited by the Organizing Committee to be in attendance and provide candid views on each innovation.

The VEITHsymposium Organizing Committee believes that the I&I Roundtable offers a unique opportunity to see the latest in novel, game-changing cardiovascular technology, all in one place and over the course of a half-day. This is an event that should not be missed by anyone with scientific or financial interests in emerging cardiovascular technology. (This is a non-CME activity.)

Vascular International Hands-On At VEITHsymposium

Thursday, November 19, 2015

Location: Americas Hall 1, 3rd Floor

Vascular International has been performing vascular surgical workshops, also known as 'Pontresina courses', for more than 20 years and has become the number one platform for practical hands-on training and education in open and endovascular techniques on lifelike simulators in Europe. This hands on course was made possible by Maquet, providing additional sponsorship along with open surgical simulators and a full line of vascular grafts and patches.

The Vascular International Open Vascular Surgery Course offers 2 sessions:

Morning Session: 8:00 a.m. – 12:30 p.m. (Course in Open Surgery for AAA)

Afternoon Session: 1:00 p.m. – 5:30 p.m. (Course for Open Carotid Surgery)

Attendance is limited to the first 100 VEITHsymposium registrants at no additional cost. Please contact registrar@veithsymposium.org, or (800) 987-9314, ext. 200 for information on how to register. (This is a non-CME activity.)

ACCREDITATION STATEMENT

The Cleveland Clinic Foundation Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Cleveland Clinic Foundation Center for Continuing Education designates this live activity for a maximum of 49.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Participants claiming CME credit from this activity may submit the credit hours to the American Osteopathic Association for Category 2 credit.

ABS MAINTENANCE OF CERTIFICATION

VEITHsymposium provides Category 1 CME and self-assessment credits toward Part 2 of the ABS MOC Program.

CME CERTIFICATES AND COURSE EVALUATION FORMS

CME certificates will be available online at www.VEITHsymposium.org. An e-mail with a unique password and instructions on how to obtain the certificate and complete a brief, optional course evaluation will be sent to all registered attendees after the meeting. The e-mail will be sent to the e-mail address that was used to register the attendee. **Please note that CME Certificates must be claimed by February 29, 2016.**

FACULTY DISCLOSURE

The Cleveland Clinic Foundation Center for Continuing Education has implemented a policy to comply with the current Accreditation Council for Continuing Medical Education Standards for Commercial Support requiring resolution of all faculty conflicts of interest. Faculty declaring a relevant commercial interest will be identified in the activity syllabus.

ADA STATEMENT

The Cleveland Clinic Foundation Center for Continuing Education complies with the legal requirements of the Americans with Disability Act. If any participant of the VEITHsymposium requires special assistance, please send written request at least one month prior to the activity to admin@veithsymposium.org, or by fax to (845) 368-2324.

GENERAL INFORMATION

ONLINE ACCESS TO ABSTRACTS

Presentation slides will be used as abstracts and will be available on the program page of the VEITHsymposium web site at www.veithsymposium.org after the meeting. Abstracts will be available on the web site for one full year.

ONLINE CONFERENCE LIBRARY

The entire program with all the talks, all the slides, all the videos - fully synchronized - and all the panels, will be available in an Online Conference Library, which can be obtained at a nominal cost. For more information on how to obtain the VEITHsymposium Online Library, please visit www.veithondemand.com or call (800) 987-9314, ext. 300.
